

Adziwa Orphan Village Playground

Adziwa Playground Project

With 5 different play structures kids will have lots of options. These items were chosen in order to optimize the opportunities for imagination play!

For donations please visit www.WithChangeInMind.org

Play is incredibly important to the development of children's social, emotional, cognitive and physical development, as well as creativity and imagination.

Play is essential to brain development and the development of certain reasoning abilities.

Additionally, a lack of free spontaneous play can be harmful to a developing child.

This playground will be built next to the Community Learning Center that our groups will also be building this summer in Malawi. We are excited to provide all the children under 5 in this community a place to play, imagine and learn! Please help support this amazing project with donations for any one of our structures.
